

ENERGY STAR® Application for Certification

93

ENERGY STAR®
Score¹

VanNess

Registry Name: VanNess
Property Type: Office
Gross Floor Area (ft²): 667,166
Built: 2015

For Year Ending: 05/31/2017²
Date Application Becomes Ineligible: 09/28/2017

1. The ENERGY STAR Score is based on total source energy. A score of 75 is the minimum to be eligible for the ENERGY STAR.
 2. Applications must be submitted to EPA within 120 days of the Year Ending Date. The award is not final until approval is received from EPA.

Please use the [Licensed Professional's Guide to the ENERGY STAR® for Commercial Buildings](http://www.energystar.gov/lpguide) for reference in completing this checklist
 (<http://www.energystar.gov/lpguide>).

1. Review of Whole Property Characteristics

Basic Property Information

1) Property Name for Registry: VanNess

Is this the official name to be displayed in the [Registry of ENERGY STAR Certified Buildings and Plants](#)?

☒ Yes

☐ No

If "No", please specify: _____

2) Property Type: Office

Is this an accurate description of the primary use of this property?

☒ Yes

☐ No

3) Location:

1325-1341 Boylston Street
Boston, Massachusetts 02215

☒ Yes ☐ No

Is this correct and complete?

4) Gross Floor Area: 667,166 ft²

Does this represent the entire property? (i.e., no part of the building/property was excluded/subtracted from the total) If "no" please specify what space has been excluded.

☒ Yes ☐ No

5) Average Occupancy (%): (b) (4)

Is this occupancy percentage accurate for the entire 12 month period being assessed?

☒ Yes ☐ No

6) Number of Buildings: 1

Does this number accurately represent all structures?

☒ Yes ☐ No

Notes:

Indoor Environmental Standards

1) Ventilation for Acceptable Indoor Air Quality

Does this property meet the minimum ventilation rates according to ANSI/ASHRAE Standard 62.1, Ventilation for Acceptable Indoor Air Quality?

☒ Yes ☐ No

2) Acceptable Thermal Environmental Conditions

Does this property meet acceptable thermal environmental conditions according to ANSI/ASHRAE Standard 55, Thermal Environmental Conditions for Human Occupancy?

☒ Yes ☐ No

3) Adequate Illumination

Does this property meet the minimum illumination levels as recommended by the Illuminating Engineering Society of North America (IESNA) Lighting Handbook?

☒ Yes ☐ No

Notes:

2. Review of Property Use Details

Office: (b) (4) Office

★ This Use Detail is used to calculate the 1-100 ENERGY STAR Score.

★ 1) Gross Floor Area: 14,644

Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

☒ Yes ☐ No

NOTE: This use detail was changed during the year ending 05/31/2017. The value above represents a time-weighted average of the values over this timeframe. The following table outlines the history of the changes resulting in the value displayed above:

Timeframe	Value
06/01/2016 – 06/30/2016	178,173 ft²
07/01/2016 – 05/31/2017	0 ft²

★ 2) Weekly Operating Hours: (b) (4)

Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the HVAC system is starting up or shutting down, or when property is occupied only by maintenance, security, cleaning staff, or other support personnel. For properties with a schedule that varies during the year, use the schedule most often followed.

☒ Yes ☐ No

★ 3) Number of Workers on Main Shift: (b) (4)

Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.

☒ Yes ☐ No

★ 4) Number of Computers: (b) (4)

Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.

☒ Yes ☐ No

★ 5) Percent That Can Be Heated: (b) (4)

Is this the total percentage of the property that can be heated by mechanical equipment?

☒ Yes ☐ No

★ 6) Percent That Can Be Cooled: (b) (4)

☒ Yes ☐ No

Is this the total percentage of the property that can be cooled by mechanical equipment?
This includes all types of cooling from central air to individual window units.

Notes: The space attributes were updated based on stacking plans and tenant surveys.

Multifamily Housing: (b) (4)

★ This Use Detail is used to calculate the 1-100 ENERGY STAR Score.

★ 1) Gross Floor Area: 116,285

Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

☒ Yes ☐ No

★ 2) Total Number of Residential Living Units: (b) (4)

Is this the total count of all individual private apartments/ condominiums, including both occupied and unoccupied units?

☒ Yes ☐ No

★ 3) Number of Residential Living Units in a Low-rise Setting (1-4 stories): (b) (4)

Is this the count of all individual private apartments/ condominiums (both occupied and unoccupied) located in individual buildings that are 1 to 4 stories in height, as well as units located in wings/portions of larger buildings that fall in this height range (e.g. if Wing A is 6 stories and Wing B is 3 stories, only units in Wing B would be counted here).

☒ Yes ☐ No

★ 4) Number of Residential Living Units in a Mid-rise Setting (5-9 stories): (b) (4)

Is this the count of all individual private apartments/ condominiums (both occupied and unoccupied) located in individual buildings that are 5 to 9 stories in height, as well as units located in wings/portions of larger buildings that fall in this height range (e.g. if Wing A is 6 stories and Wing B is 3 stories, only units in Wing A would be counted here). The Total Number of Residential Units represents all occupied and unoccupied units at the property.

☒ Yes ☐ No

★ 5) Number of Residential Living Units in a High-rise Setting (10 or more stories): (b) (4)

Is this the count of all individual private apartments/ condominiums (both occupied and unoccupied) located in individual buildings that are 10 or more stories in height, as well

☒ Yes ☐ No

as units located in wings/portions of larger buildings that fall in this range (e.g. if Wing A is 10 stories and Wing B is 5 stories, only units in Wing A would be counted here).

★ **6) Number of Bedrooms:** (b) (4)

Is this the total number of bedrooms located in each individual apartment unit at the property. The value should reflect current operational conditions, which reflect additions/modifications to the original unit(s). Please note that efficiency and studio apartments count as having one (1) bedroom. A junior one bedroom (a unit with a separate space for sleeping that is usually separated by a half wall or temporary wall), should be also be counted as one (1), the same as an efficiency unit. If your property is in the design phase, use your best estimate for the intended conditions when the property is fully operational.

☒ Yes ☐ No

Notes:

Retail Store: (b) (4)

★ This Use Detail is used to calculate the 1-100 ENERGY STAR Score.

★ **1) Gross Floor Area:** 175,062

Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

☒ Yes ☐ No

★ **2) Weekly Operating Hours:** (b) (4)

Is this the total number of hours per week that the property is open to the public?

☒ Yes ☐ No

★ **3) Number of Workers on Main Shift:** (b) (4)

Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.

☒ Yes ☐ No

★ **4) Number of Computers:** (b) (4)

☒ Yes ☐ No

Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.

★ 5) **Number of Cash Registers:** (b) (4)

Is this the total number cash registers? Cash registers are defined as physical machines that are used primarily for conducting transactions and indicating to customers the amounts of individual sales; they record and total receipts, may automatically calculate the change due, and often include a money drawer from which to make change. Handheld point of sale devices should not be included.

☒ Yes ☐ No

★ 6) **Number of Open or Closed Refrigeration/Freezer Units:** (b) (4)

Is this the count of open or closed cases that are used for the sale or storage of perishable goods? This includes display-type refrigerated open or closed cases and cabinets as well as display-type freezer units typically found on a sales floor. Each case or cabinet section, typically 4 to 12 feet in length, should be considered 1 unit. Include those cases located inside and immediately adjacent to the building. These units may be portable or permanent, and may have doors, plastic strips, or other flexible cover. This count should not include vending machines.

☒ Yes ☐ No

★ 7) **Number of Walk-in Refrigeration/Freezer Units:** (b) (4)

Is this the total count of walk-in units at the property? Walk-in Refrigeration/Freezers are typically very large units located in storage areas or commercial kitchens that would not be accessible to all building occupants. This count should only include large storage units that a person actually walks into in order to store or retrieve perishable goods.

☒ Yes ☐ No

★ 8) **Single Store:** 100% Yes

Is this property a single store?

☒ Yes ☐ No

★ 9) **Exterior Entrance to the Public:** 100% Yes

Is this the correct answer to whether the property has an exterior entrance through which customers enter from the outside? If patrons must enter through an interior entrance, such as from within a mall or an atrium in a mixed use establishment, this is not considered an exterior entrance.

☒ Yes ☐ No

★ 10) **Percent That Can Be Heated:** (b) (4)

Is this the total percentage of the property that can be heated by mechanical equipment?

☒ Yes ☐ No

★ 11) **Percent That Can Be Cooled:** (b) (4)

Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.

☒ Yes ☐ No

Notes: The store hours are accurate as the store operates everyday from 8AM-12AM.

Office: 5th Floor Extended Hours

★ This Use Detail is used to calculate the 1-100 ENERGY STAR Score.

★ 1) Gross Floor Area: 15,091

Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

☒ Yes ☐ No

★ 2) Weekly Operating Hours: (b) (4)

Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the HVAC system is starting up or shutting down, or when property is occupied only by maintenance, security, cleaning staff, or other support personnel. For properties with a schedule that varies during the year, use the schedule most often followed.

☒ Yes ☐ No

★ 3) Number of Workers on Main Shift: (b) (4)

Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.

☒ Yes ☐ No

★ 4) Number of Computers: (b) (4)

Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.

☒ Yes ☐ No

★ 5) Percent That Can Be Heated: (b) (4)

Is this the total percentage of the property that can be heated by mechanical equipment?

☒ Yes ☐ No

★ 6) Percent That Can Be Cooled: (b) (4)

Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.

☒ Yes ☐ No

Notes: The space attributes were updated based on stacking plans and tenant surveys.

Office: (b) (4)

★ This Use Detail is used to calculate the 1-100 ENERGY STAR Score.

★ 1) Gross Floor Area: 343,825

Is this the total size, as measured between the outside surface of the exterior walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

☒ Yes☐ No

NOTE: This use detail was changed during the year ending 05/31/2017. The value above represents a time-weighted average of the values over this timeframe. The following table outlines the history of the changes resulting in the value displayed above:

Timeframe	Value
06/01/2016 – 06/30/2016	181,149 ft ²
07/01/2016 – 03/31/2017	359,322 ft ²
04/01/2017 – 05/31/2017	354,219 ft ²

★ 2) Weekly Operating Hours: (b) (4)

Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the HVAC system is starting up or shutting down, or when property is occupied only by maintenance, security, cleaning staff, or other support personnel. For properties with a schedule that varies during the year, use the schedule most often followed.

☒ Yes☐ No

★ 3) Number of Workers on Main Shift: (b) (4)

Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.

☒ Yes☐ No

NOTE: This use detail was changed during the year ending 05/31/2017. The value above represents a time-weighted average of the values over this timeframe. The following table outlines the history of the changes resulting in the value displayed above:

Timeframe	Value
06/01/2016 – 06/30/2016	(b) (4)
07/01/2016 – 03/31/2017	(b) (4)
04/01/2017 – 05/31/2017	(b) (4)

★ 4) Number of Computers: (b) (4)

☒ Yes☐ No

Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.

NOTE: This use detail was changed during the year ending 05/31/2017. The value above represents a time-weighted average of the values over this timeframe. The following table outlines the history of the changes resulting in the value displayed above:

Timeframe	Value

04/01/2017 – 05/31/2017	5,103 ft ²

Notes: The space attributes were verified during the onsite walkthrough.

3. Review of Energy Consumption

Data Overview

Site Energy Use Summary

Electric - Grid (kBtu) (b) (4)
 Natural Gas (kBtu) (b) (4)
 Total Energy (kBtu) 41,403,881.8

Energy Intensity

Site (kBtu/ft²) 62.1
 Source (kBtu/ft²) 140.4

National Median Comparison

National Median Site EUI (kBtu/ft²) 125.6
 National Median Source EUI (kBtu/ft²) 284.1
 % Diff from National Median Source EUI -50.6%

Emissions (based on site energy use)

Greenhouse Gas Emissions (Metric Tons CO₂e) 2,764.6

Power Generation Plant or Distribution Utility:

NSTAR Electric Company

Note: All values are annualized to a 12-month period. Source Energy includes energy used in generation and transmission to enable an equitable assessment.

Summary of All Associated Meters

The following meters are associated with the property, meaning that they are added together to get the total energy use for the property. Please see additional tables in this checklist for the exact meter consumption values.

Meter Name	Fuel Type	Start Date	End Date	Associated With
Aggregate Residential Electric Grid Meter	Electric	01/01/2015	In Use	VanNess
Natural Gas - Office (b) (4)	Natural Gas	09/29/2014	In Use	VanNess
Natural Gas - Residential (b) (4)	Natural Gas	09/29/2014	In Use	VanNess
Aggregate Office	Electric	03/01/2016	In Use	VanNess
Garage Meter PUB1	Electric	07/14/2015	In Use	VanNess
Total Energy Use				<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Do the meters shown above account for the total energy use of this property during the reporting period of this application?

Additional Fuels

☒ Yes ☐ No

Do the meters above include all fuel *types* at the property? That is, no additional fuels such as district steam, generator fuel oil have been excluded.

On-Site Solar and Wind Energy

☒ Yes ☐ No

Are all on-site solar and wind installations reported in this list (if present)? All on-site systems must be reported.

Notes: These meters account for all energy consumed at the building.

Summary of Additional Meters

None of the following meters are associated with the property meaning that they are not added together to account for the total energy use of the property.

Meter Name	Fuel Type	Start Date	End Date	Associated With
(b) (4) - Fire Pump	Electric	04/06/2015	In Use	None
(b) (4) - Resi Penthouse-PUB 2	Electric	12/31/2014	In Use	None
(b) (4) - Office Penthouse-PUB3	Electric	12/31/2014	In Use	None
(b) (4) - Public 5%	Electric	01/23/2015	In Use	None
(b) (4) - 4th floor AHU	Electric	06/14/2016	In Use	None
(b) (4) - 6th Floor AHU	Electric	09/14/2016	In Use	None
Calpine/1335 5%	Electric	10/14/2015	In Use	None
Calpine/1335 PUB 2	Electric	11/14/2015	In Use	None
Calpine/1335 PUB 3	Electric	10/14/2015	In Use	None
Calpine/Fire Pump	Electric	10/14/2015	In Use	None

Sub (or Ancillary) Meter Energy Use

☒ Yes ☐ No

Are the meters in this list all sub-meters or other ancillary meters that do not need to be added to the total energy for the reporting period of this application?

Notes:

Electric Meter: Aggregate Residential Electric Grid Meter (kWh (thousand Watt-hours))

Associated With: VanNess

Start Date	End Date	Usage	Green Power?
06/01/2016	06/30/2016	(b) (4)	No
07/01/2016	07/31/2016		No
08/01/2016	08/31/2016		No
09/01/2016	09/30/2016		No
10/01/2016	10/31/2016		No
11/01/2016	11/30/2016		No

Total Consumption (therms):		(b) (4)
Total Consumption (kBtu (thousand Btu)):		

Total Energy Consumption for this Meter

☒ Yes ☐ No

Do the fuel consumption totals shown above include consumption of all energy tracked through this meter that affect energy calculations for the reporting period of this application (i.e., do the entries match the utility bills received by the property)?

Notes: All entries have been input accurately and verified against actual bills.

Natural Gas Meter: Natural Gas - Residential (b) (4) (therms)

Professional Engineer Stamp

NOTE: When applying for the ENERGY STAR, the signature of the Verifying Professional must match the stamp.

5. Signatory Agreement

I hereby nominate the above described property for award of the ENERGY STAR. I have provided a copy of the Licensed Professionals Guide to the ENERGY STAR for Commercial Buildings to our Licensed Professional (LP) for reference. As documented by the above checklist, this property meets the conditions necessary to qualify as ENERGY

STAR. I am submitting this application within four months of the Year Ending Date (May 31, 2017) used to generate the application. I will assist EPA, if requested, in verifying any data included in this application. Furthermore, I agree to associate the ENERGY STAR logo only with this property and to adhere to the ENERGY STAR Identity Guidelines.

Signature (must be a direct employee of the building owner/manager):  Date: 9/25/17

Signatory Name: Timothy Rivett

Property Owner: Samuels & Associates

The government estimates the average time needed to fill out this form is 6 hours (includes the time for entering energy data, Licensed Professional facility inspection, and notarizing the SEP) and welcomes suggestions for reducing this level of effort. Send comments (referencing OMB control number) to the Director, Collection Strategies Division, U.S., EPA (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460
